

INTRODUCING THE BUSINESS GROWTH SERVICE

WHAT IS IT?

The Manufacturing Advisory Service is now part of the Business Growth Service, a government-backed service offering support to businesses with the potential to improve and grow. We can help you to achieve your business goals by identifying barriers to growth and providing tailored support that fits your needs. This support includes coaching, consultancy, mentoring, training, access to finance and export advice.

THE SUPPORT YOU CAN RECEIVE

Your dedicated Business Growth Manager will work with you to identify what your business needs and help you to access a range of support. This includes:

- Planning your business strategy
- Developing new ideas and products
- Improving manufacturing processes
- Accessing and building supply chains

As well as:

- Exporting for the first time or breaking into new markets
- Growth through innovation
- Accessing finance
- Building leadership and management skills
- Business development coaching
- Protecting intellectual property
- Connecting with a network of ambitious business leaders

IS IT FOR ME?

To be eligible for funded support, your business must be looking to improve and grow, and fit the following criteria:

- A manufacturing business registered in the UK and based in England
- Have up to 249 employees
- Have turnover of up to £40m
- Meet the EU definition of an SME

Larger manufacturing companies can also use our resources at market rates and benefit from our support for developing their supply chains

YOUR BUSINESS GROWTH MANAGER

You will work with a dedicated Business Growth Manager who really understands manufacturing issues. We will discuss your needs and barriers to growth, identify the areas of support that are right for your business and introduce you to the experts that can help.

We'll be there to support you on every step of your business growth journey.

WHAT SHOULD I DO NEXT?
